# Directory of Soviet Officials: National Organizations

## A Reference Aid

Information available as of 9 February 1989  
was used in the preparation of this publication.

## Preface

**The Directory of Soviet Officials** identifies individuals who hold positions in selected party, government, and public organizations of the USSR. It may be used to find the incumbents of given positions within an organization or the positions of given individuals. For some organizations, it serves as a guide to the internal structure of the organization.

**Coverage.** This publication supersedes *Directory of Soviet Officials: National Organizations* (LDA 87-12090, June 1987). It covers organizations at the national level and Soviet representation in some international organizations. It is one of a three-part series: the other volumes deal with republic-level organizations and with scientific and educational organizations.

**Directory Entries.** The date an individual assumed his positions is listed in the “position” column. Dates are preceded by the abbreviations “ap” (for appointed), “el” (for elected) and “id” (for first identification in position). Partial dates are given when exact dates are not known—for example, when identifications are taken from books or periodicals. Dates of birth are listed in the “birth” column for selected officials. In most cases, only the last two digits of a year are listed. For example, 97 indicates the year 1897, 00 indicates 1900, and 17 indicates 1917. Names are given in full where known. Transliteration from Russian follows the system authorized by the Board of Geographic Names (BGN). Non-Russian names (such as those of Estonian or Ukrainian origin), for which original Latin alphabet spellings or separate BGN transliteration systems exist, are treated as Russian names and are transliterated from their Russian spellings. Hence, the Ukrainian surname “Honchar” is rendered “Gonchar.” Military ranks and/or the highest earned academic degree are listed for some individuals. An index to major organizations and a personality index are included at the end of the publication. Duplicate names in the personality index refer to different individuals who have the same name.

**Organizations.** An effort has been made to verify and standardize the names of organizational components and the position titles of individuals. Most of the addresses and Russian titles of organizations based in Moscow are taken from *Moskva: Kratkaya Adresno-Spravochnaya Kniga* (Moscow: A Short Address and Reference Book), 1977, and *Spisok Abonentov Moskovskoy Gorodskoy Telefonnoy Seti* (List of Subscribers to the Moscow City Telephone Network), 1982.
